Corrigendum

Corrigendum to “Maternal birthplace and experiences of perinatal healthcare in Belgium: Evidence from a cross-sectional survey” [Midwifery 138 (2024) 104139]

Claudia Schönborn^{*}, Katia Castetbon, Myriam De Spiegelaere*Université libre de Bruxelles, Ecole de Santé Publique.*

The authors regret that they failed to acknowledge a funder who subsidised the publication fees. The funding section should therefore read as follows:

“The funder (FNRS) provided support in the form of salary for authors [CS], but did not have any additional role in the study design, data collection and analysis, decision to publish, or preparation of the manuscript. Furthermore, the funder (ULB) provided support in the form

of funding for data collection and materials, e.g. remuneration for interviewers, tablets, printing costs [MDS, CS], but did not have any additional role in the study design, data collection and analysis, decision to publish, or preparation of the manuscript. Finally, this article has been published with the support of the University Foundation of Belgium.”

The authors would like to apologise for any inconvenience caused.
